DON'T TAKE OUR WORD FOR IT...

“

We found the session very insightful and that it is important to raise awareness around the topic as not only this will benefit herself, but she will now be able to help and maybe spot a colleague in need.

I myself found the session very interesting and engaging, loved the interacting bits. I think it is crucial to talk more about mental health in the Hospitality industry and make it an OK topic of discussion; I also think the content regarding working on prevention strategies, learning how to cope with mental health issues before it becomes a bigger problem.
